
Getting Email Updates on Your Child's Work (Parents)

Once you have logged into Renaissance Home Connect, you can set up email updates about your child's work. Depending on the software that your school has and the settings they have chosen, you may be able to get emails when your child takes Star tests or Accelerated Reader quizzes or when your child finishes assignments for Accelerated Reader 360, Accelerated Math Instructional Practice, or Star Custom. Each email will show you the score for the activity that your child completed.

Emails about your child's work will come from autodelivery@renlearnrp.com; make sure this email address is exempted from junk or spam email filters.

Follow the steps below to set up email updates. You may add up to six email addresses per student.

How to Get to the Page

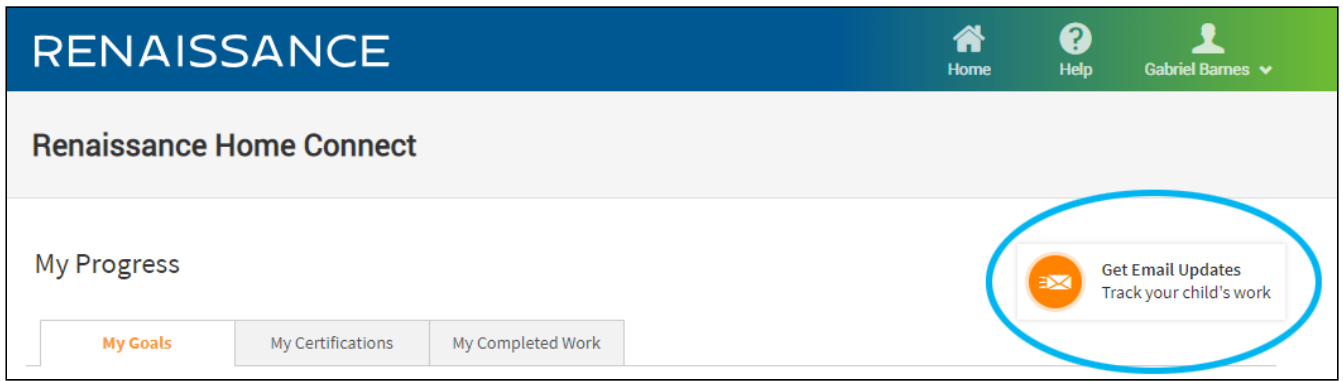

<https://global-zone08.renaissance-go.com/studentprogress/homeconnect? t=101900>

1. Log in to Renaissance Home Connect. To do this, go to the website address that your school provided, and enter your user name and password. Then, select **Log In**.

If you have more than one child using the software, you must log in separately with each child's user name and password and set up your email preferences for that child.

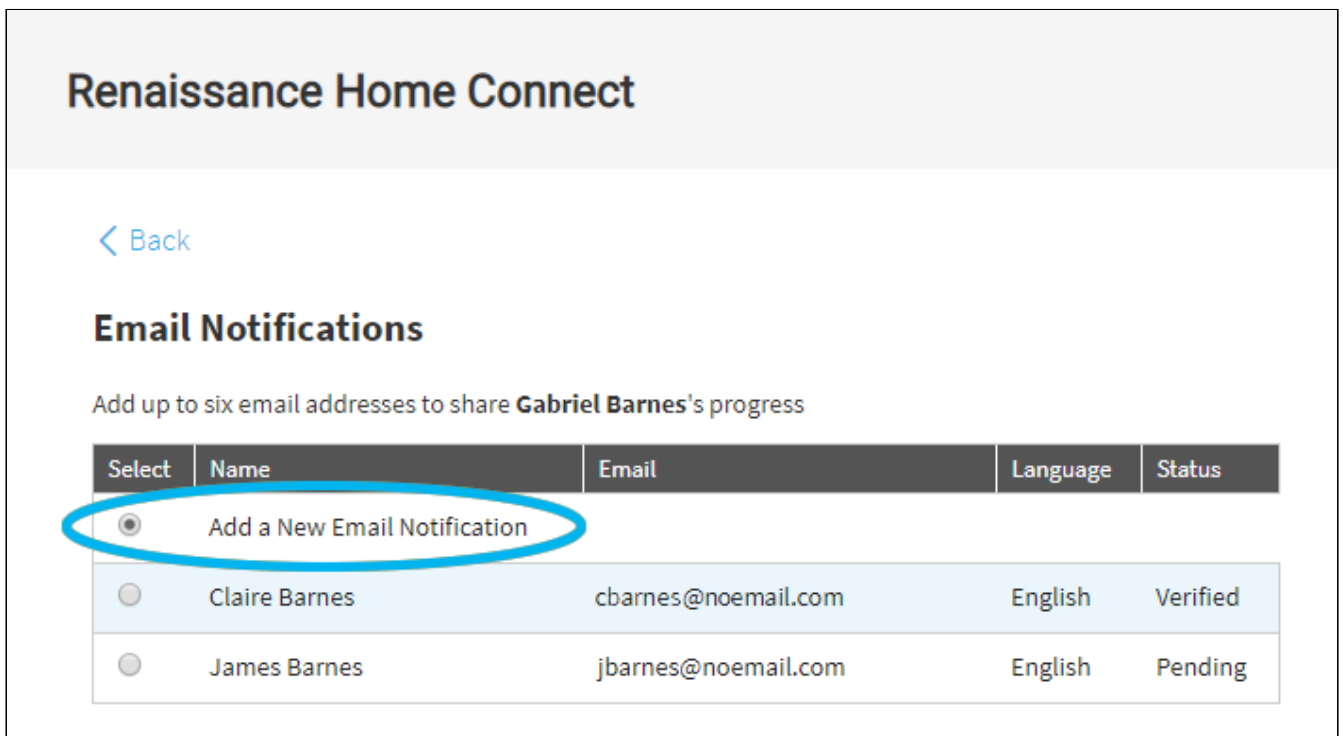

2. Once you are logged in, select **Get Email Updates** on the right side of the page. **Note:** This button is not available if your school's preferences don't allow emails to be sent for any programs.

How to Add a New Email

1. If this is the first email address you're adding, go to step 2.

If you have already entered other email addresses, make sure **Add a New Email Notification** is selected at the top of the page.

2. On the Email Notifications page, enter your name under "New Email Details." Then, enter your email address in the two blanks provided.

4. Under Email Notifications Preferences, check the boxes for the activities that you'd like to receive updates about. The activities that you can check depend on the software that your school has and the emails that the school has chosen to allow. The choices that you make apply to the email address that you are adding.

Upper Arlington Schools uses **Star Early Literacy, Math, and Reading**.

- **Star Early Literacy, Star Math, and Star Reading assessments** are short tests that provide teachers with learning data. Star tests are computer-adaptive, which means they adjust to each answer your child provides. This helps teachers get the best data to help your child in the shortest amount of testing time (about one-third of the time other tests take). Star tests may be available for early literacy, math, or reading, and they may be available in English or Spanish.

Upper Arlington Schools does not use the programs listed below.

- **Star Custom** gives students brief tests on specific skills.
- **Accelerated Reader** quizzes show how well students understand the books they are reading. Students take quizzes on books they have chosen; they may also take quizzes on stories they've read in their textbook.
- In **Accelerated Reader 360 Instructional Practice**, students read nonfiction articles, answer questions about the articles, and take a quiz. These assignments help teachers understand how students are doing on specific reading skills.
- **Accelerated Math Instructional Practice** assignments help students practice the math skills that they are learning at school.
